

THE PROJECT - ACCOMMODATION EXTENSIONS

The Project Sites are 'Shove-Ready' with the only barrier being the shortfall of the expansion project funding. Planning application reviews, designs, and groundwork investigations have confirmed the funding required as \$170K. L'Arche has a reserve of \$30K in addition to a substantial donation from the Holesworth Family for the capital works.

It is hoped that the remaining \$120K can be raised through donations and successful applications to philanthropic groups.

Donations are Tax Free

EXPANSION PROJECT

BENDIGO@LARCHE.ORG.AU

**Founded in France, in 1964,
L'Arche is French for Ark,
representing Noah's Ark,
providing support and
community amid the Storm.**

L'Arche now has 156 member communities in 38 countries, which the L'Arche Foundation supports globally. The establishment of L'Arche in Bendigo took time and a thorough planning process. It has become an active and vibrant support for many who need this service.

The expansion will assist both short and long term accommodation through the construction of units at both Kennington and Spring Gully locations.

OUR IMPACT - IN THE WORDS OF OUR FAMILIES AND COMMUNITY

I would like to say how much better off my son and I are after becoming involved with L'Arche Bendigo. We found it hard to find NDIS support after experiencing the caring environment offered by schools. My son and I have been offered a caring home environment.

Damien

L'Arche has listened and taken account of my daughter's unique identity. I feel respected and safe in expressing my hopes and dreams, my sadness, my disappointments and joys."

Lynda

The real essence and magic of community is a sense of belonging. It is about bringing people together to support each other, advocate and connect. When I think of L'Arche I see it epitomising this: a community where people, are welcome to share, laugh, be and belong.
